Welcome to UTS College – your way to UTS

Congratulations on taking the first step in your journey to a master’s degree at UTS, Australia’s number one young university.

We’re here to help. Whether you need to improve your English or your academic skills, we’re behind you all the way; providing the support you need to gain guaranteed* entry into a UTS master’s degree.

At UTS College, we don’t just teach you the course subjects, we focus on life-long learning skills.

Support when and how you need it

Our wide range of support services are freely available to all UTS College students to ensure your success. They include:

- a comprehensive Learning Support Program
- free weekly one-on-one tutorials
- Study Success Workshops to prepare you for assessments and exams
- full-time dedicated Student Success Advisers to provide support and advice.

Plus, our classes are small – with no more than 20 students in one tutorial – giving you a more personalised and connected learning experience.

We also offer additional support via **Studiosity**, which provides study help and direct online assistance within our courses. This includes:

- Anytime, anywhere writing feedback – you can submit your writing tasks and get feedback within 24 hours
- Live Connect – a live chat support line you can use for referencing, academic writing skills, and basic maths.

Morwenna Shahani
Chief Executive Officer
UTS College

Welcome to UTS College.

As the pathway to UTS, we help you to develop the knowledge, experience and skills to succeed at university and beyond. We work in collaboration with UTS to ensure your studies prepare you for your next step at university. When you begin your journey with us, we are there for you, helping you to succeed and thrive.

We look forward to meeting you.

Why choose a Pre-Master's Program with UTS College?

You're guaranteed* entry into a UTS master's degree

Our Pre-Master's graduate certificates are designed to ensure your smooth transition to the corresponding UTS master's degree, with 24 credit points of advanced standing towards your master's program*. We offer our Pre-Master's Program in two key disciplines – Accounting and Finance and IT and Engineering – and prepare you for postgraduate success at UTS.

You'll receive a recognised tertiary qualification

On successful course completion, not only will you be ready to transition to a UTS master's degree, you'll receive a graduate certificate qualification in your chosen field of study.

You'll improve your English language and literacy skills

You'll gain verifiable digital badges marking your achievements in key skills including language and literacy, embedding these important skills through your academic subjects.

You'll have improved career prospects

Students with postgraduate qualifications can enjoy above average levels of income and success when entering full-time employment. In the supportive and student-centred UTS College environment, we'll prepare you to make the most of entrepreneurial opportunities and strong industry connections at UTS.

Why choose a Pre-Master's Program with UTS College?

Our inbuilt support ensures your success

At UTS College, you'll develop the academic and English language skills you need to thrive in a postgraduate university environment. Using a teaching model that combines on-campus classes in real time with interactive and engaging self-directed learning, and providing practical class experiences, group work and collaboration, we'll nurture and support you to reach your postgraduate goals, and prepare you to evolve and adapt to the challenges of the future.

You'll enjoy a UTS model of learning

Our courses are built on more than 35 years of strong academic experience and are informed by our vision to enhance lives through the power of learning. Our courses are designed in collaboration with UTS and are tailored to successfully guide you into the relevant UTS master's degree. Learning is delivered by high-quality, professional teaching staff with years of expertise in transitional education.

What's great about UTS?

We're ranked 90th in the world

We're ranked 90th in the world in the QS World University Rankings 2024. We're also rated 5 plus stars in the international QS Stars University Ratings 2021-2024 and number 1 Young University (under 50 years) in Australia and 9th in the world. Our approach to education is agile and focused on delivering successful outcomes for our graduates, regardless of whether the mode of learning is on-campus or online.

We're committed to providing career support long after you graduate

The UTS Careers Service offers free career consultations, resume reviews and employment workshops, all designed to enhance your employability. You'll also have access to student job boards, industry career fairs and international alumni networks.

We offer vital industry connections and entrepreneurial experiences

We take a global and innovative approach to education and we're closely aligned with the needs of industry, delivering training in conjunction with industry partners. In fact, for more than a decade we've been recognised as the most industry-focused university in Sydney by both NSW business leaders and government.

What's great about UTS?

Our students come first

At UTS, we continue to support you to succeed by offering:

- English language and study support
- Career counselling and development
- Confidential medical and counselling services
- Sporting clubs, social clubs and facilities
- Peer networking and peer support
- Housing and financial hardship assistance
- Access to a world-class library and online resources.

Our education is practice oriented

We're committed to hands-on practical learning that includes projects, collaboration and real-life case studies. Our practice-based approach is key to providing you with the skills you need to impress future employers. Our program content is developed in collaboration with industry partners, and all UTS faculties are led by industry advisory boards.

Andrew Parfitt
Vice-Chancellor and
President, UTS

UTS has an ambitious vision to be a leading public university of technology recognised for delivering global impact. We are measured by the success of our students, staff and partners, and are committed to research, innovation and the dissemination of knowledge of public value.

Through our education, research and engagement with industry, we are committed to transforming to a lifetime of learning where we support people throughout their whole career and lives, ensuring we do more than simply prepare people to successfully enter the workforce. We look forward to welcoming you to UTS College and UTS.

Accounting and Finance

The **UTS College Graduate Certificate in Accounting and Finance** will give you the confidence, knowledge and skills you need to take your professional qualifications to the next level. This qualification provides you with 24 credit points* of advanced standing towards the Master of Professional Accounting (Extension) or the Master of Finance (Extension) at the **UTS Business School**.

Over the course of one or two semesters**, you'll:

- study financial management and learn the skills required to make informed financial decisions
- examine the principles of macroeconomics and microeconomics as they relate to business management
- analyse financial statements and how to apply accounting concepts to gain business intelligence.

Plus, you'll gain additional skills in English language and organisational communication.

Graduate Certificate in Accounting and Finance

Program	UTS College Intake	Standard program – students with IELTS 6.0 <small>(CRICOS Code 103556G)</small>		Accelerated program – students with IELTS 6.5 <small>(CRICOS Code 103557F)</small>	UTS degree destinations	UTS Intakes
		Semester 1	Semester 2	Semester 1

Information Technology and Engineering

The [UTS College Graduate Certificate in Technology Practice](#) will set you on the right path for a career in IT or Engineering.

Over the course of one or two semesters**, you'll:

- learn how to manage the development and implementation of technology solutions and systems
- construct a research report based on a review of the literature which demonstrates synthesis of information, critical thinking, and the logical arguing of your point of view
- work on real-world design challenges using a design-thinking framework
- gain an understanding of, and appreciation for, professional standards and ethical behaviour in the information technology industry.

You'll also develop a full industry project proposal, perfect your English and academic skills, and gain new industry perspectives. On successful completion*, you'll gain entry and 24 credit points of advanced standing towards a:

- Master of Information Technology (Extension), Master of Information Technology, or Master of Data Science and Innovation, or
- Master of Engineering (Extension), or Master of Professional Engineering

in the [UTS Faculty of Engineering and Information Technology](#).

Graduate Certificate in Technology Practice

Program	UTS College Intakes	Standard program – students with IELTS 6.0 <small>(CRICOS Code 103560M)</small>		Accelerated program – students with IELTS 6.5 <small>(CRICOS Code 103561K)</small>	UTS degree destinations	UTS Intakes
		Semester 1	Semester 2	Semester 1		
Graduate Certificate in Technology Practice	Accelerated: February September	English for Postgraduate Study 1	English for Postgraduate Study 2	Project Management (6cps)	Master of Engineering (Extension) Master of Professional Engineering Master of Information Technology (Extension) Master of Information Technology Master of Data Science and Innovation	February July

		Technical Research Preparation (6cps)	Project Studio (6cps)	Technology Professional and Society (6cps)		
				Project Studio (6cps)		

10 *Based on successful completion of the graduate certificate with no more than 25 percent recorded fails. Master of Data Science requires a GPA of 4.0 on a 7.00 and no more than 25 per cent recorded.

**Depending on your level of English literacy.

Learning.Connected

We've redesigned pathway education to create new, fun and inspiring ways to learn.

What is Learning.Connected?

Learning.Connected is an interactive and wholistic approach to learning; combining leading technology with today's education best practice, and the study support, social networking, leadership opportunities and personalised help UTS College is known for, into a unified, student-centred experience.

How does it work?

Built on evidenced-based research, **Learning.Connected** prepares you for **study at UTS** in engaging and interactive ways. You'll be guided by our expert teachers in collaborative tutorial sessions, independent learning tasks, and group activities, to develop deep subject knowledge, gain confidence, and become a skilled communicator.

What's new?

With a newly designed curriculum, structured activities, and access to a wide range of learning resources built into the course materials and designed for Learning.Connected, you'll learn vital work-ready skills such as collaboration, communication, independent learning, and critical thinking. You'll be empowered to reach your potential, ready and prepared for your master's degree at UTS, and your future career.

Technology at your fingertips

Our on-campus classes are supported by world-leading education technology. Combining intuitive learning software with face-to-face collaboration and communication, you'll enjoy the best of both on-campus and online experiences, working with your teachers and fellow students.

This means you can enjoy the same high-quality UTS College education – powered and enhanced by the latest technology.

Become future-ready

Studying with UTS College is your opportunity to master important digital skills that will support you through university and into your future workplace. You'll also have access to world-class facilities, at an enviable campus location right in the heart of Sydney.

You'll work both collaboratively and independently, with teaching and learning support available 24/7. You'll develop future-ready skills for the world of study and work, and you'll enjoy access to our fun social activities and time to network with your peers.

Pathways to UTS

We offer two pathways to a UTS master's degree.

Pathway 1 is the accelerated program for four months over one semester for students with an IELTS of 6.5 with 6.0 in writing. The accelerated program is offered in semesters 1 and 3 at UTS College.

Pathway 2 is the standard program for eight months over two semesters, which includes two subjects in English for students with an IELTS of 6.0 with 6.0 in writing. The standard program is offered in semesters 2 and 3 at UTS College.
